- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). 1. Claims 13-20 are again rejected under 35 U.S.C. 103(a) as being unpatentable over any of the patents to Seki et al., Kishimi or Yoshida in view of the patents to both Tytgat and Tan et al. alone or in combination with applicants' statement of the prior art.

The fact that no single reference teaches applicants' claimed invention fails to obviate the instant rejection under 35 U.S.C. 103(a) since applicants' claimed invention is suggested by the various combination of references listed above. The fact that the aforementioned references suggest modifications for different reasons than applicants is not dispositive of the issue of patentability since the modifications result in the same subject matter claimed by applicants.

2. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
